STOCK CONTROLS

SIMPLE STOCK MANAGEMENT & AUDITING SOFTWARE

Stock Controls is an online platform to manage all your stock auditing requirements.

OUR AIM

To implement the most cost-efficient and complete stocktaking platform that is user-friendly and feature-rich, delivering total stock control for your business. Our solution is designed to be used by people of all capabilities and knowledge, from stocktaking specialists to those whose experience is more operational. Integration with your other favourite business products consigns duplication of data entry to history.
